REASON FOR SALE: The equipment was purchased from China to produce blueberry powder for the pharmaceutical industry. Most equipment is approx. 2017 vintage and imported just prior to Covid. Following relaxed travel mandates, the installer from China was having delays in obtaining a visa and after this delay along with Covid, the decision has been made to sell the process line as well as the production building. The installer person in China may still be able to obtain a visa and come to Canada to install.

SALE PROCESS: The system will be sold breakup individually with the option at the end, of bidding on the entire plant at a bid greater than the aggregate of all the individual items. If bid on as a package, all individual bids become null and void and the system will be sold as a package.
